

## Los Angeles Section Scholarships

**We have had few applicants in the past so your chances of winning are HIGH!**

# \$2000 Scholarship!

**NACE Los Angeles Section Scholarship, DEADLINE: FEB 15, 2015**

NACE International is the leader in the corrosion engineering and science community, and is recognized around the world as the premier authority for corrosion control solutions.

The NACE International Los Angeles Section is providing a \$2,000 scholarship to a LA, OC, Riverside or San Bernardino County student majoring or going to major in the sciences or engineering. We read your essay, choose a winner, and then send a check in your name.

To be considered, please respond in writing to the following question:

**WHY IS CORROSION CONTROL IMPORTANT IN YOUR FIELD OF STUDY?**

**Paper should be 2-3 pages in length.**

We like graphs, pictures and a clear, structured story. The essay could be based on a case study, or an editorial on an industry you find interesting.

Include your name, address, phone number, major, year of study, university attending, and the name and phone number of one professor as a reference.

Members of the Los Angeles Section of NACE International will select the best response.

The scholarship will be awarded at the LA Section of NACE International Awards & Elections dinner meeting in May, where the winner will be an invited guest.
